Professional Summary

Software Developer with nearly 2 years of experience building and maintaining web applications using React.js, Next.js, TypeScript, Node.js, PostgreSQL, and MongoDB. Experienced in application development, REST APIs, debugging, production support, deployment, and database-driven systems. Strong foundation in software engineering, problem solving, and collaborative Agile development.

Technical Skills

- Languages:** JavaScript, TypeScript, Node.js, SQL, C++, Java
- Frontend:** React.js, Next.js, React Native, Redux, Zustand,
- Backend & APIs:** Node.js, Express.js, REST APIs, API Design, Webhooks
- Databases:** PostgreSQL, MongoDB, MySQL, Data Modeling
- Application Support:** Debugging, Root Cause Analysis, Logging, Monitoring, Sentry
- Deployment & DevOps:** AWS, GitHub Actions, CI/CD, Vercel
- Testing:** Jest, Unit Testing, API Testing, Test Automation
- AI Engineering:** Claude Code, Cursor, MCP Servers, Multi-Agent Workflows, Prompt Engineering, LLM Tooling
- Software Engineering:** OOP, SDLC, System Design, Code Reviews
- Tools:** Git, GitHub, Postman, Jira, Linux
- Methodologies:** Agile, Scrum, Continuous Delivery
- Problem Solving:** 700+ DSA problems solved on [LeetCode](#)

Experience

- Associate Software Developer**
Primathon Software Pvt. Ltd.

Jan. 2025 – Present
Delhi-NCR
- Project: Storefront-Builder — Multi-Merchant E-Commerce Platform**

- Developed and maintained production web applications on a multi-merchant Next.js + Node.js platform, working across frontend components, backend services, API integrations, deployment, and production support.
 - Designed and implemented features across 29+ REST API endpoints, supporting product discovery, cart, checkout, search, and customer-facing workflows.
 - Engineered AI-assisted development workflows using Claude Code, MCP servers, and custom agents to accelerate frontend implementation, debugging, and feature delivery.
 - Designed and implemented end-to-end e-commerce analytics using **GA4**, **PostHog**, and **Meta Pixel + server-side Conversions API**; integrated **Sentry** with priority-based Slack alerting and per-merchant data segregation.
 - Primary developer end-to-end on three production storefronts — **Aqualogica (Live)**, **Wellversed (Live)**, and **PlixKids (Live)** — building home, PLP, PDP, cart, and checkout flows with mobile-first UIs backed by BFF data orchestration.
- Project: Care41 — Healthcare Booking Platform (Live)**

- Architected and developed Care41.net from scratch, designing PostgreSQL schemas, REST APIs, authentication systems, and administrative workflows.
 - Owned development, deployment, production support, debugging, and maintenance activities while collaborating with stakeholders to improve system reliability.

Projects

- Aqualogica — Skincare D2C Storefront (Live)**

2025
- Developed and launched a production-grade D2C e-commerce storefront using **Next.js**, **TypeScript**, **REST APIs**, and **BFF architecture**, delivering home, PDP, cart, checkout, and product discovery experiences integrated with inventory, pricing, and catalog services.
 - Built reusable UI components and CMS-driven widgets, improved performance and maintainability, integrated backend APIs, and supported debugging, production monitoring, and feature delivery in an Agile development environment.
 - Built reusable UI components and CMS-driven widgets, optimized page performance and Core Web Vitals, reducing page load times by 80% and contributing to a 68% increase in organic traffic and 90% improvement in conversion rate.

Education

- Indian Institute of Information Technology Dharwad**
B.Tech — Computer Science and Engineering

2020 – 2024
Karnataka

Achievements & Professional Development

- Strong experience working with databases, REST APIs, debugging, monitoring, and production issue resolution.
- Earned [NCC Certificate](#), demonstrating leadership, discipline, and team coordination.
